

Naturally Supernatural by Gary Best

You have a choice. One of these two assignments must be completed and approved by the course instructor or supervisor in order to receive a THOUGHTWORKS certificate of completion.

Naturally Supernatural assignment choice #1.

- a) Do a 3-4 page book report including the key elements in Gary's book, *Naturally Supernatural*.
- b) Pray (healing prayer) for 20-25 people and document what happened. How was the prayer done and what was the result? Compile the documentation in a notebook:
- Presenting problem to be prayed for
 - Who prayed
 - Was there any initial evidence of the Lord's presence?
 - When you asked for their response or feedback, what was it?
 - If there was not an immediate change or evidence of healing, was there any positive feedback later?

Present your documentation and also write a summary of what you have learned in this process.

Naturally Supernatural assignment choice #2.

- a) Do a 3-4 page book report including the key elements in Gary's book, *Naturally Supernatural*.
- b) Interview 10 people who have seen someone healed through prayer and ask them the following questions.
- What was the presenting condition or problem?
 - What was the story of the prayer process?
 - How did the healing happen?
 - After the healing what is happening now?

Then write a summary of how these stories have affected you. What are the ingredients that keep one on track long-term with healing prayer (those people who have kept at healing prayer for a lifetime) as opposed to those who do it for a time and then give up?

Upon completion of this assignment, please turn in a copy of the completed work to your regional THOUGHTWORKS coordinator to receive the certificate of completion. Thank you!
